

ONOTO

COMMISSIONS

## BRITISH MASTERY

Onoto fountain pens combine an appreciation of the past and an eternal quest for novel discoveries. Ours is a story that spans over a century of refining age-old pen-making techniques to create objet d'art that speak to cultured connoisseurs.

We've been designing velvety smooth writing experiences since Onoto the Pen introduced the first-ever self-filling ink mechanism in 1905. Much has changed but the intricate and illusive skills of craftsmen from the royal charter of Goldsmiths or the precision of nib-masters.

## GIFTS FOR ETERNITY

Becoming an Onoto Custodian means embracing its safekeeping for future generations. Designed to help their owner tell their story and leave a mark on eternity.

Our pens can be distinctive mementoes for celebrations or special occasions - gifts that they will love to cherish quietly or show off modestly. We offer both bespoke and personalised services to help you bring Onoto magic into their lives.

## BESPOKE ART

Your desires are our passions. We can create one-off artefacts from your chosen image or pattern featured on the pen as proud or subtle as you wish. The centuries-old vitreous enamelling technique is re-defined by our state of the art engraving on silver or gold.

Connoisseurs would savour a bespoke range of gold nibs in different sizes to fit their style of handwriting. Our bespoke commissions are the epitome of luxury in jewellery and pen making techniques.

## A PERSONAL TOUCH

You can customise designs from Onoto fountain pen collections with your choice of engravings. So whether these are corporate commissions for your clients or members of the Board, you can add a truly personal touch to your gift.

One that evokes a universal human search for beauty and meaning through masterpieces of British art and literature.

as Oscar Wilde once said:

“BEAUTY IS A FORM OF GENIUS –  
ONE OF THE GREAT FACTS OF  
THE WORLD, LIKE SUNLIGHT,  
OR SPRINGTIME.  
IT CANNOT BE QUESTIONED,  
AND MAKES PRINCES  
OF THOSE WHO HAVE IT.”
